

Dear Contractors / Potential Client

A19 INSPECTIONS AND CERTIFICATION OF WORK

My name is Cyprian L. February Pr. Eng. Tech. (MSAICE), Co-Director of Cape Spectrum Engineering cc.

Cape Spectrum Engineering cc is a multi-disciplinary micro enterprise in the Building Construction and Civil Engineering Industry.

We hereby wish to offer our services for A19 INSPECTIONS AND CERTIFICATION of your building construction work.

Regulation A19 of the National Building Regulations requires the owner of a building to appoint a competent person (registered professional) to accept responsibility for the design, inspection and certification of the work if (a) a rational design or (b) a geotechnical investigation is required. This appointment is normally done by means of an "A19" form (Form 2, SANS 10400-A: 2010).

We are fully competent and fully registered in terms of the Engineering Council of South Africa to provide this service.

We provide free quotations and the rates for our services are in accordance with the tariffs provided by Engineering Council of South Africa.

Please find our contact details below.

Yours faithfully

Cyprian L. February Pr Tech Eng (MSAICE)

Professional Registration: 200270172
